### PROFILE

Committed and goal-oriented computer science graduate looking to pursue a career in the software engineering domain. Possess excellent knowledge in HTML, CSS, Javascript, JQuery. Ability to learn things quickly and capable of working in a fast-paced and team-driven environment.

### PROJECTS

#### SpotClone-The Spotify Clone

- SpotClone is a simplified Spotify clone that demonstrates fundamental web development concepts. It leverages HTML, CSS, and JavaScript to create a user-friendly interface for exploring playlists, albums, and enjoying music playback. The project can serve as a foundation for further enhancements and feature additions.

#### NETFLIX LANDING PAGE

Mini Project

- By using HTML for structure, CSS for styling, and JavaScript for interactivity, you can create a dynamic and responsive web page that captures the essence of Netflix's design.

#### PERSONAL PORTFOLIO

Mini Project

- It typically includes sections like About Me, Projects, Skills, Resume, and Contact. Designed with a clean, professional layout, it serves as a digital resume, demonstrating expertise and personal branding to potential employers or clients.

#### A CHARITY WEBSITE

- A charity website design aims to inspire and engage visitors by showcasing the organization's mission, programs, and impact. It typically features a compelling homepage, clear navigation, and sections like About Us, Programs, Success Stories, and How to Help. Visual elements such as impactful images, videos, and testimonials create an emotional connection, while easy donation options and volunteer sign-up forms encourage active participation and support from the audience.

### WORK EXPERIENCE
